25 June 2021

Dear Students

CHANGE IN JUNE/JULY 2021 SIT DOWN ON-CAMPUS SUMMATIVE EXAMINATIONS UNDER EXAM CONDITIONS

The Independent Institute of Education has decided to postpone the sit-down examinations. As a national institution, the situation in Gauteng has bearing on all sites and while we remain confident that the campus protocols are robust enough, we have made a collective decision to postpone the sit down on-campus exams.

All other summative assessments already planned Take Home Exams, and online and/or on campus Project and PoE submissions are due on the dates and times already specified as per your assessment schedule. The campuses remain open, and you therefore still have access to all the facilities you may need to successfully complete and submit these assessments.

To reduce the impact on students as much as possible, we are also reviewing the possibility of having some of the exams redeveloped in a format that will be suitable for take home. This will NOT be possible for all subjects, in addition we will communicate the revised schedule for these assessments early next week, to ensure you have sufficient time to prepare.

Yours sincerely,

Felicity Coughlan
Director - The Independent Institute of Education
Group Academic Director – ADvTECH
