#### **Brand and Brand Building**

This module develops students' understanding of the key brand concepts that guide the development of innovative and purposeful solutions to brand building opportunities and challenges. Emphasis is placed on creative, critical and systemic thinking.

#### Strategic Brand Management and Leadership

This module considers brand management from an "inside out" and "outside in" perspective to guide the management of a sustainable brand by the brand owner. Students will develop knowledge and understanding of both external and internal environmental variables to be considered when developing brand strategies and plans, both locally and internationally. The focus is on commercial and entrepreneurial brand management practice and the associated strategic and operational dimensions. Brands will be analysed in context of the market environment and stakeholder relationships within which they are built.

#### Financial, Economic and Legal Aspects

This module develops understanding and applied knowledge of the principles of finance, economics and compliance relative to the development of brand strategies and plans, both locally and internationally.

#### **Practice of Brand Building**

This module applies the theories of strategic brand management and communication to answer real-life client briefs. The focus is on the development and crafting of an innovative brand building strategy and plan that will address complex business and societal challenges. Students will implement brand research to investigate situational, environmental and commercial scenarios. They will derive consumer insights to drive the execution of original and meaningful solutions to multi-faceted brand challenges. Students work in teams to address real-life working situations; develop their skills in recommending brand solutions; and to collaborate with peers in a process of innovative problem solving.

#### Research

Students will develop essential research skills for both professional and academic contexts alongside the ability to present and defend research to an expert audience. Emphasis is placed on independent and critical thinking, analysis, research design and methods, as well as academic discourse. Students complete a self-directed research project of limited scope under supervision in the discipline of the degree.
